

Preface	XIII
Introduction	XV

Palpation

Palpation as a Guide	2
The Palpation Sequence	3
Learning Palpation	4
Pressure versus Depth	6
The Three Rhythms	8
Tonus	11
End Feel	12
Endnotes	12

Fascia

Fascia	14
From Cell to Fascial Matrix	14
Organ of Form	18
The Gel/Sol Relationship	20
Adaptation to Injury	21
Fascial Adhesions	28
Range of Motion	30
Conclusions and Review	31
Exercises and More Study	31
Endnotes	32

Range of Motion

Conclusions and Review	31
Exercises and More Study	31
Endnotes	32

Nature and Nurture

The Nature of Horses	36
The Nurture of Horses	37
Body Language	38
Eyes and Vision	40
Therapist or Tiger	42
More Domestication	43

Equine Structure

The Foot	46
The Front Suspension	48
Collection	51

Evaluating Movement

Lameness	56
Quality of Gait	59
A Typical Evaluation	62

Standing Analysis

Movement Analysis	66
Gaits of the Horse	67
The Trot Beat One	68
The Trot Beat Two	69
The Trot Beat Three	70
Practice Photos	71
The Canter	74
The Canter Beat Two	76
The Canter Beat Three	78

Safety

Working with a Handler	82
Tying the Horse	83
Cross Ties	84
Not Tying	85
A Safe Environment	85
Warning Signs	86

Fascial Release Techniques

Sweep	90
Circles and “C” Stroke	91
Skin Rolling	92
Compression	93
Tissue Testing	94
Bending	95
Cross Fiber Friction	97

Techniques for The Head

General Approach	100
The Head	100
Atlanto-Occipital Release	103
Frontal Bone Circles	104
Sweeping the Frontal Bone	105
Atlanto-Occipital Sweep	106
Sweeping the Zygomatic	107
Mandible Sweep	108
Masseter Compression	109
The Temporal Mandibular Joint (TMJ)	110
Forelock Pull	112
Ear Circles	113
Ear Sweep	114
Tip of Ear Circles	115
Mouth Work	116
Nose Work	117

Techniques for the Neck

Nuchal Ligament Bending	121
Nuchal Ligament Distraction	122
Brachiocephalicus Sweep	123
Rhomboid/Splenius/Complexus Sweep	124
Rhomboid Knuckle Sweep	125

Techniques for The Shoulder

Shoulder Skin Rolling	129
Shoulder Compression	130
Sweeping the Scapula Border	131
Scapula Border Sweep	132
Scapula Spine Sweep	133
Cervical Trapezius Barrier Hold	134
Scapula Spread and Hold	135
Subscapularis Release	136

Techniques for the Forearm

The Forearm	139
Conformation	140
Safety and Body Mechanics	141
Pectoral Sweep	142
Triceps Attachment	143
Triceps Sweep	144
Latissimus and Triceps Separation	145
Serratus Ventralis Release	146
Serratus Ventralis Release, continued...	147

Techniques for the Rear

The Ribs	151
Spinal Erector Compression	152
Erector Sweep	153
Lumbar Sweep	154

Techniques for the Rear cont...

Gluteal Compression	155
Bending of the Semimembranosus	156
Semimembranosus Sweep	157
Semitendinosus Sweep	158
Semitendinosus Compression	159
Lumbar Compression	160
Gastrocnemius and Deep Digital Flexor	162
Biceps Femoris Separation	164
Tensor of the Fascia Latae Compression	165
Adductor Sweep	166
B	167
A	167
Tail Compression and Sweep	168

Techniques for Scars

Scars	170
Scar Techniques	171
Scars worthy of mention	173

Myofascial Stretching

Myofascial Stretching	176
The Basic Locomotor System	176
Motor System Physiology	177
Foreleg Triceps Stretch	180
Foreleg Triceps Stretch 2	181
Foreleg Triceps Stretch 3	182
Foreleg Deltoid Stretch	183
Rear Leg Hamstring Stretch	184
Rear Leg Hamstring Stretch 2	185
Rear Leg Hamstring Stretch 3	186
Rear Leg Hamstring Stretch 4	187
Rear Leg Quadriceps Stretch	188
Working with Joints	189

Table of Contents

Myofascial Stretching cont...	
Joint Distraction	190
Joint Compression	191
Joint Rotation	192
Bibliography	193
Index	194
About the Author	197
